

YOUR HEALTH AND SAFETY MATTER TO US!

In the spirit of [Philippians 2:3-4](#) and out of care and concern for our brothers and sisters, FCM in accordance with current CDC regulations regarding COVID-19, upholds the following guidelines:

- Face masks are **no longer required** for attendance at corporate gatherings. We suggest that those who are not vaccinated against COVID-19, the flu, or other highly communicable diseases wear a mask, however they are not required.
- Face masks, and hand sanitizer continue to be available for those who are not fully vaccinated, as well as for anyone else that would feel safer utilizing them.
- All attending corporate gatherings **are still required** to undergo a temperature check upon arrival, and are encouraged to stay/return home if they are/have had a fever, or other COVID-19, or flu like symptoms within the last 48 hours.
- [Learn more](#) about the types of face masks to choose and how to wear them appropriately.
- See additional information below from the CDC which influenced these most recent changes/decisions.

What Prevention Steps Should You Take Based on Your COVID-19 Community Level?

Community Burden Levels

Low	Medium	High
<ul style="list-style-type: none"> Stay up to date with COVID-19 vaccines Get tested if you have symptoms 	<ul style="list-style-type: none"> If you are at high risk for severe illness, talk to your healthcare provider about whether you need to wear a mask and take other precautions Stay up to date with COVID-19 vaccines Get tested if you have symptoms 	<ul style="list-style-type: none"> Wear a mask indoors in public Stay up to date with COVID-19 vaccines Get tested if you have symptoms Additional precautions may be needed for people at high risk for severe illness

People may choose to mask at any time. People with [symptoms, a positive test, or exposure](#) to someone with COVID-19 should wear a mask. Masks are recommended in indoor public transportation settings and may be required in other places by local or state authorities.

When to Wear a Mask or Respirator

Layered prevention strategies — like staying up to date on vaccines and wearing masks — can help prevent severe illness and reduce the potential for strain on the healthcare system. **Wear a mask with the best fit, protection, and comfort for you.**

Know the COVID-19 Community Level where you live

[COVID-19 Community Levels](#) are a tool to help communities decide what prevention steps to take based on the latest data.

Low

- Wear a mask based on your personal preference, informed by your personal level of risk

Medium

- If you are immunocompromised or at [high risk for severe illness](#)
 - Talk to your healthcare provider about additional precautions, such as wearing masks or respirators indoors in public
- If you live with or have social contact with someone at high risk for severe illness, consider testing yourself for infection before you get together and wearing a mask when indoors with them.

High

- Wear a well-fitting mask indoors in public, regardless of vaccination status or individual risk (including in K-12 schools and other community settings)
- If you are immunocompromised or at [high risk for severe illness](#)
 - Wear a mask or respirator that provides you with greater protection
